What an unbelievably clever idea! Murphybeds create a more versatile room. Murphybeds are ideal for a child's room, a home office, a library, a den, a spare room, a workout room or a craft room.

## *DAY*

During the day with the bed up, you have more space in the room for other uses such as crafts or a playroom.

## *NIGHT*

At night, the bed pulls down with a comfortable mattress to provide a good night's sleep for you or your guests.

Like its Murphybed counterpart, the Panelbed offers a complete furniture look and feel. However the doors are attached and fold down with the bed to allow easy access to the cabinetry attached the Panelbed. This modern and sophisticated design gives the upmost use in any room. Combine the Panelbed with a home office or with any wall unit design to maximize your home office or any room.
